In the two hour **Sabkhu: Soul Star Place Lecture**, you will discover that the purposes of the *per-neter* known to us as the Great Pyramid at Giza and to the old Egyptian Mystics as *Sabkhu* were many, a few being: a house of initiation, a power plant to generate, transform, and transmit piezo-electrical energy, and, quite possibly, a star gate for the mystic-avatars to commune with other higher mind-body-spirit complexes.

Surprisingly, the ancient Egyptian Mystics did not call the Great Pyramid of Giza a pyramid. The English word “pyramid” is derived from the Greek word “*pyramidos*” meaning “fire in the middle”. The Egyptian Mystics actually called the Great Pyramid of Giza a “*per-neter*” which loosely translates as a “house of nature” or “house of energy”.

During his 30-odd visits to Egypt, **James Phillips** has been mentored extensively by the *sedj'dee*, the indigenous wisdom-keepers of Egypt. A graduate of the world famous Monroe Institute in Virginia, Jim travels extensively presenting the two hour **Sabkhu: Soul Star Place Lecture** and eight hour **Secrets of the Mystics Workshop**. Jim is also the creator of the **imaginization Album**-- the home study version of his **Secrets of the Mystics Workshop**-- which uses his exclusive Total Mind multi-layered audio guidance system to support listeners in deep relaxation while listening to the **imaginization Album**.
