#### **Some general guidelines for getting onto Zoom:**

You need a computer/tablet/smartphone with a microphone and speaker - and hopefully a camera. Most laptops/tablets - and all smartphones - have these, but not all desktops do.

Or...you can call the phone number above from any kind of phone for an audio-only connection.

For audio and video, click on the link above.

On a laptop, you will be prompted to download Zoom when you click the link (unless you already have it). On a tablet or smartphone, you will need to download the Zoom app.

It may take a couple of minutes to get connected.
